TUESDAY, JULY 17, 2001, 4:00pm – 7:00PM

PROGRAM

FIELD APPROVALS

HOW WE GIVE THEM-HOW YOU GET THEM

The process of obtaining FAA field approvals for major alterations and repairs is being reevaluated. Recent modifications in the FAA's requirements for the need for field approvals will affect the aviation maintenance and avionics technician.

Come and listen to the St. Louis area Aviation Maintenance Safety Counselors who have "been there and done that" discuss their experiences in obtaining FAA field approvals. In many cases it is simpler that you would imagine if it's done *right*.

This event is planned to begin after the normal work day with a Brat and Soda meal provided to the attendees by your sponsors before the presentation.
